# BUSINESS ENERGY EFFICIENCY PROGRAMS

## 2025 CUSTOM INCENTIVES PROGRAM

The Ameren Missouri BizSavers<sup>®</sup> program provides Custom Incentives for energy-efficient equipment that is not eligible for Standard Incentives. Custom Incentives are calculated based on the estimated annual energy savings of the proposed energy efficiency measures.

Some of the most popular Custom Incentive projects include air compressor upgrades, building control systems and chiller upgrades. Customers must provide calculations quantifying energy savings and all equipment purchases must receive pre-approval prior to purchase and installation to qualify for Custom Incentives. Visit [AmerenMissouri.com/GetStarted](https://AmerenMissouri.com/GetStarted) for more details on starting your project.
